WORK EXPERIENCE

Bowie State University

Bowie, MD

Supplemental Instructor (Cybersecurity)

Dec 2025 - Present

- Provide 20 hours of weekly instruction and lab support in intrusion prevention, threat detection, and network security using Linux, Windows Server, and network-monitoring tools.
- Guide students through Wireshark analysis, vulnerability identification, Active Directory security, system hardening, and network forensics, contributing to a 14% increase in average test scores.

Del Cor Technologies

Silver Spring, MD

IT Solutions Consulting Shadow

August 2026- Present

- Shadow IT engineers during on-site and remote service operations, gaining exposure to technical troubleshooting, client support, and incident triage.
- Assist with developing standardized dispatch plans and response scenarios for common system malfunctions and service requests.
- Review internal audit findings and observe the development of corrective recommendations to address operational and security deficiencies.
- Create remote-service scenario guides outlining appropriate troubleshooting, escalation, and resolution procedures.

Molson Coors Beverage Company

Milwaukee, WI

IT Security Intern

May 2026 – August 2026

- Developed a password blacklist with 900+ terms to strengthen enterprise password security.
- Supported SAP account debugging to improve secure user access.
- Reviewed and remediates 16,000+ Active Directory service accounts to improve identity management and reduce licensing costs.
- Collaborated with IT Security teams on enterprise identity and access management initiatives.

My Prestige Healthcare

Laurel, MD

Apprentice IT Administrator

Sep 2024 – Feb 2025

- Oversaw on-site IT engineer dispatch plans, creating pre-defined response scenarios for common malfunctions and service call types.
- Reviewed deficiencies based on internal audits and suggested remedies.
- Created remote service interaction scenario manuals, defining appropriate triage.

INNOVATION & PROJECTS

- **PadiSave — Financial Inclusion & Credit Platform (Founder)**
Designed an open payments fintech solution to build savings history, trust scores, and access for underserved communities.
- **Molson Coors x TMCF Innovation Case Competition — 2nd Place**
Presented a tech solution in a Molson Coors/TMCF national challenge, recognized for innovation and problem-solving.
- **Enterprise Multi-VM Network (VHA EAS Simulation)**
Built a 6-machine Windows/Ubuntu enterprise environment with AD DS, DNS/DHCP, segmentation, and system hardening.
- **Bulldog Pitch Competition (Finalist)**
Finalist selected to present PadiSave in Bowie State's Bulldog Pitch Competition against graduate student teams.

LEADERSHIP, PROFESSIONAL DEVELOPMENT & SERVICE

- **Management Leadership for Tomorrow (MLT) — Career Prep Fellow**
Selective 18-month leadership program for high-achieving, diverse talent in business and technical excellence.
- **Interledger Impact Team — Student Lead**
Partner with the Interledger Foundation to travel to HBCUs teaching financial literacy, and open payments
- **Women in Computer Science — AI/ML Research Cluster**
Conducted AI/ML research under faculty and senior student mentorship.
- **Bowie State Honors Program — Community Service Organizer**
Led campus-wide toiletries drive supporting women's shelters in the DMV area.

- **Executive Leadership Council (ELC) Scholarship —**
Selected as an ELC Scholar for demonstrated leadership, academic excellence, and career potential in business and technology.
 - **Breakthrough Tech - Ai Fellow**
-

PRESENTATIONS & CONFERENCES

- **Interledger Foundation — Mexico City, Mexico**
Invited to present Bowie State research and Interledger initiatives to global technology leadership; engaged with CTO on ethical payments innovation.
- **Thurgood Marshall College Fund Leadership Institute — Invited Scholar**
Selected to represent Bowie State University at TMCF's national leadership and innovation convening.
- **Management Leadership for Tomorrow Tech Trek — California**
Invited participant in MLT's technology immersion experience connecting students with industry leaders and emerging tech spaces.
